

Northwind Logistics - depot scheduling proposal (2024)

SUPERSEDED. This proposal was written before the Shenzhen depot opened and before the March throughput study. It is kept for background only.

Scope

Two sites: Felixstowe and Rotterdam. Shenzhen is not mentioned because the site did not exist when this was written.

Volumes

Felixstowe handles approximately 350,000 consignments a year.
Rotterdam handles approximately 200,000 consignments a year.

Approach

Replace Zephyr WMS outright in the first phase, then build slot booking on top of the replacement.

Commercials

Fixed price, eleven months, one delivery team.
